

Saint-Étienne, Le 08/02/2023

Dear,

For several years, our company, which is committed to complying with the European regulations and guaranteeing the conformity of products to our customers, has taken measures and implemented actions to meet the requirements in terms of Quality and Environment (ISO 9001, EN 9100 certifications, ISO 14001 and compliance with the ROHS directive, compliance with the legislation on Conflict Minerals).

The European regulation 1907/2006 concerning the registration, evaluation and authorization of chemicals called REACH entered into force on 1 June 2007 and complements our environmental requirements.

We are obviously completely involved in this project as a spring manufacturer.

This is why we can confirm that we have verified the pre-registration of the substances in our products by our material suppliers as well as all our subcontractors (coatings, heat treatments, paints, etc.). We therefore guarantee that all items delivered are in compliance with the new edition of substances listed in Annex XIV of REACH with 233 SVHC **as of 19/01/2023**

For any additional information, your contact person in charge of this file within our company is :

Mrs JULLIEN Pascale
91 rue de la croix de mission
42100 SAINT-ETIENNE
e-mail: novaressort@novaressort.fr

Wishing you good reception and thanking you for your trust,
